PROFESSIONAL SUMMARY

Analytical, process-driven Logistics & Warehouse Specialist with 3+ years running fast-paced distribution environments end-to-end — stock control, order fulfilment, and logistics coordination — backed by a zero-incident safety record and 99%+ inventory accuracy across 500+ SKUs. Pairs hands-on warehouse expertise with a Pure Mathematics background, self-directing the design and deployment of a custom PHP/MySQL inventory system now core to daily operations. Seeking to bring this operational and technical combination to an international logistics or warehouse role.

PROFESSIONAL EXPERIENCE

Warehouse Operations Manager & Inventory Systems Specialist

Jan 2024 – Present

EKANE & SONS (Drinks Distribution) — Buea, Cameroon

- **Designed, built, and deployed** a custom PHP/MySQL inventory system with real-time tracking, cutting manual data entry time by 70% and achieving 99%+ inventory accuracy across 500+ SKUs.
- **Managed** order picking, packing, stock movement, and logistics coordination, sustaining a 100% on-time delivery rate and zero order discrepancies over 24 months.
- **Standardized** systematic stock rotation and material-handling procedures, reducing shrinkage and operational losses by 5%.

Warehouse Assistant Manager

Aug 2021 – Mar 2023

Trio's Wholesale of Drinks — Buea, Cameroon

- **Directed** receiving, storage, and dispatch operations end-to-end, holding a 98% on-time delivery rate with zero safety incidents across 20 months.
- **Maintained** digital inventory records while coordinating picking/packing workflows, achieving 99.2% inventory accuracy across 500+ SKUs.
- **Restructured** staffing and workflows during peak seasonal demand, keeping deliveries on time through high-volume periods.

Warehouse Material Handler / Team Leader

Jun – Aug 2017

AB Universal Logistics — Douala, Cameroon

- **Gained hands-on experience** operating forklift equipment and applying manual-handling best practices across reception, sorting, and palletizing, processing 15+ tons daily with zero workplace injuries.
- **Managed** damaged-goods inventory and quality checks, reducing shrinkage by 3% and improving stock-rotation compliance.
- **Coordinated** daily warehouse tasks and mentored handlers on safety and compliance standards.

Order Picker and Delivery Agent

Jun – Aug 2014

ARNO Group — Douala, Cameroon

- **Achieved** a 99.5% order accuracy rate on picking, packing, and quality-checking customer orders, with zero completeness complaints.
- **Executed** regular stock replenishment and cycle counts as part of the daily routine, contributing to 95%+ inventory accuracy.
- **Supported** on-time dispatch and basic customer service, holding a 100% on-time delivery record.

CORE EXPERTISE & TECHNICAL SKILLS

Warehouse & Logistics

- Inventory management & stock control

- Order picking, packing & fulfilment
- Material handling & safety compliance
- Quality control & auditing
- Forklift operation

Technical & Systems

- PHP/MySQL database design
- Inventory systems design & automation
- Computer literacy

Leadership & Operations

- Team leadership & mentoring
- Workflow & resource scheduling
